

COFFEE QUEEN MEGA GOLD is a thermos coffee brewer that brews directly into a practical 2.5 litre serving station equipped with a tap and level indicator. It is perfect when you need to keep slightly larger quantities of coffee warm for hours, while also retaining its taste and aroma. Remove the serving station from the coffee brewer and position it where you want the coffee to be served. Simple and flexible.

This coffee brewer is available with either manual or automatic water filling. Comes with 25 filters and a serving station. The model with automatic water filling also comes with a connection hose.

Serving station
