

The perfect espresso machine to produce delicious café quality espresso

The Domobar Super from Vibiemme is the perfect espresso machine to produce delicious café quality espresso and milk based coffees. It is placed at the prestige end of the home espresso machine.

The Domobar Super has very impressive technical commercial attributes and internal balances. It has been refined over many years to allow absolute confidence of continuous café quality enjoyment.

The Commercial E61 group head offers excellent heat characteristics resulting in superb coffee with every pour. Also, the Domobar Super is renowned for its superior boiler capacity enabling a high volume of steam required for producing the optimum texturing of milk for detailed latte art.

Country of origin	Italy	

La Vibiemme are based in Milan, and have an extensive history and credibility in the international market of manufacturing traditional espresso machines spanning over the past 40 years. The founder of Vibiemme was Mr Carlo Valente, also the founder of renowned FAEMA. The Faema espresso coffee machine's heritage began in 1945 by Mr. Valente. By 1961 he had introduced the E61 model. The design and patent of the E61 group head was overseen by Mr Valente and is still the most commonly used system even after 40 years producing superior espresso coffee results. With the wonderful espresso machine history behind Vibiemme, it is no wonder that Vibiemme machines are not only beautifully designed but also mechanically and technically refined to deliver superior cup results. Vibiemme still holds the design patent for the E61 group head which is used in conjunction with the E64 group head on their models.
